

AWOODDA EREYADA.

Luuqadu waa aalad awood badan. Isticmaal luuqad loo dhan yahay si aad qofkasta ugu abuurto jawi soo dhawayn iyo badbaado leh. Waa kuwan qaar ka mid ah siyaabaha fudud ee lagu bilaabo:

- ✚ Iska waydii. Waydii shakhsiyaadka sida ay doorbidayaan in lagu tilmaamo, ama waydii xubin qoyska ah, u doode, ama xirfadle.
- ✚ Isticmaal luuqad marka hore qofka lagu bilaabay. Tusaale ahaan, dheh “shakhsi qabo naafo” badalki “qof naafoobay.”
- ✚ Ka fogow ereyada la sameeyay sida “kala duwanaansho” ama “si kale lixaad u leh.”
- ✚ Isticmaal luuqad xasaasi ah, sida “xaalad” halkii aad ka isticmaali lahayd “cillad” ama “naafo.”
- ✚ Ka fogow ereyada xukminta ah. Tusaalooyinka waxaa ka mid ah “aad u shaqaynaya” ama “aad u daran.”
- ✚ Marwalbo maanka ku hay qofka aad la hadlayso ama aad ka hadlayso.
